

# AIR FIGHT OFF ENGLAND; 11 DIE

## SEEK SPY WHO TOLD GERMANY OF ARMY SHIPS

### Believe Cablegram Aided U-Boats in Attack.

BY ARTHUR BEARS HENNING.  
Washington, D. C., July 4.—(Special.)—Wipe out the German spy system in this country before the next American army sails for France. This is the order which President Wilson has given to the combined secret agencies of the government.

Secretary of the Navy Daniels informed the president this morning that the German government, beyond any doubt, had knowledge of the departure of the Pershing division, and thus was able to intercept the transports with a large flotilla of submarines.

The secretary is convinced from the evidence in his possession that the information was conveyed to Berlin in a disguised cable message to a commercial concern in a neutral European country. That there is a German spy in the navy department is not exclusively indicated by the evidence.

#### ARRESTS EXPECTED SOON.

There are, however, a number of Germans under surveillance who are suspected of being secret agents of the Berlin government, and it is not unlikely that arrests will be made within a few days.

Intercepting of suspected German ships, the remainder of the war is now a serious possibility. Here are the facts relating to the dispatch of the American transports and their convoys:

#### 1-SECRETARY DANIELS AND ADMIRAL BENDIS.

Chief of operations, were the only persons who knew the route to be followed.

2-Admiral Gleaves, in supreme command of the expedition, sailed from an American port with sealed orders, which he did not open until he was several days out on the Atlantic. These orders were in the handwriting of Admiral Benson. Not even Benson's personal aid knew their contents. Not even Maj. Gen. Short, in command of the expedition, or any of his officers knew the port of landing or the route to be followed.

#### USED REVISED CODE.

After the expedition was well on its way the navy department sent a wireless to Rear Admiral Sims, in command of the American forces in European waters, to pick up the transports at a specified rendezvous outside the war zone. This message was sent in the navy's most secret code—one that has been revised recently and is understood by less than half a dozen American naval officers.

#### ADMIRAL SIMS, IN RESPONSE TO THESE

orders, sailed out and met the transports at the point specified. Before doing so he transmitted the information to the commanders of the French fleet of submarines, which joined his command at the specified point. Even if there had been a leak at this point it would have been impossible for the Germans to get the information in time to intercept the expedition.

#### THOUSANDS OF PERSONS ON THE ATLANTIC

had known when the ships left Atlantic ports.

#### LEAK NO U. S. EMPLOYEE.

The suggestion that some one in the government service was responsible for the information reaching Berlin has been discounted by the fact that none except Mr. Daniels and Admiral Benson was in possession of the route to be followed.

#### THE GOVERNMENT, THEREFORE, IS WORKING

on the theory that the date of sailing of the transports was cabled or wireless from this country in a disguised message either to Spain or to Sweden, whence it was relayed to Berlin. The German agents, who were responsible for sending the information, are believed to have acted through a representative or an employee of some supposedly reputable Spanish or Scandinavian firm, giving the message the semblance of an innocent business cablegram.

#### SENATOR CHAMBERLAIN SAYS HE HAS REASON

to believe the information has been sent through some wireless station in Mexico. Government officials who have made a careful investigation say that there is in Mexico no plant strong enough to talk with Germany, or even any South American country.

#### IT IS CONSIDERED HIGHLY PROBABLE, HOWEVER,

that the information might have been transmitted to one of the Latin American countries and then sent to Spain by way of Lisbon on the Portuguese cable.

## RUSSIA OFFERS ISLAND, MINES, U. S. TO EXPLOIT

### Sakhalien, in the North, Altai, and Caucasus Riches Involved.

PETROGRAD, July 4.—A special mining commission of the ministry of trade has decided to recommend the transfer to American hands of a great part of the empire's mines and other mineral deposits.

The commission has decided to speed up its proceedings in order to reach a decision during the stay of Mihail Root, head of the American mission, and also in view of the pending departure to America of Russian mining experts who will join the party of Ambassador Baklanov.

M. Malavik, director of the mining department, yesterday propounded a scheme to the commission to offer American capitalists the island of Sakhalien, off the eastern coast of Siberia, for working petroleum and coal deposits, and also to offer for the same purposes several districts of Siberia.

#### GOLD MINES AND RAILROADS.

He also recommended the transfer to American hands of the gold mines in the Altai mountains, the copper mines in the Caucasus, and the railroads in the Ural mountains.

In support of the plan to transfer the island of Sakhalien Director Malavik argued that it would counterbalance Japanese influence on the island, but insisted that Americans must recognize the continued close connection of the island with Russia.

#### THE COMMISSION RESOLVED TO RECOMMEND

the plan of M. Malavik on condition that American capitalists undertake to employ Russian laborers and technical experts on the projects.

#### RENDER OF LAND INVOLVED.

Sakhalien island lies off the east coast of Siberia, north of the Japanese archipelago. It is 14,000 square miles in area, with an area of 47,000 square miles. The climate is very severe and its population, mostly fishermen and trappers, numbers about 20,000.

#### THE ALTAI (MEANING "GOLDEN MOUNTAINS")

mountains are a group of ranges extending into the plains of Siberia from Central Asia. They extend from Tomsk on the north, south into Mongolia. The Altai are rich in mineral resources, gold, silver, copper, and iron.

#### THE CAUCASUS FORM THE BOUNDARY

between northern Russia and Asiatic Turkey, extending from the Black sea to the Caspian sea.

#### THE UTAH MOUNTAINS RUN NORTH

and south and form the main range dividing Europe and Asia, from the Arctic south to about 35 degrees north latitude.

#### BREWER UHLEIN BORROWS \$20 TO FIRE HIS CHAUFFEUR

Edgar J. Uhlein, millionaire brewer of Lake Forest, hired an Italian chauffeur—guaranteed expert. The guarantee was a "phony." The chauffeur was discharged. He wouldn't quit. He said he was hired by the month. Constable Walker Pales was called. He sustained the chauffeur's point of order. Mr. Uhlein only had \$60 with him. The chauffeur was to have drawn \$80 a month. Millionaire Uhlein borrowed \$20. The chauffeur's fired.

#### THE WEATHER.

THURSDAY, July 5, 1917.

Summit, 4:21 sunset, 7:58. Moon rises at 8:49 p. m. Friday.

Forecast for Chicago and vicinity: Cloudy with showers Thursday and Friday.

60: heavy for the day, 71: moderate; moderate easterly shifting to southerly winds.

Illinois and Wisconsin: Unsettled weather Thursday and Friday, with probably thunder showers; slowly rising temperature.

TEMPERATURE IN CHICAGO. (Last 24 hours.)

Maximum, 4 p. m., 84.

Minimum, 4 a. m., 63.

**MR. BRAND:**

Has These Few Words to Say  
on the Fourth Gun By.

*The Illinois State Tribune says editorially:*

Independence and liberty may they never become words of empty significance!

Again there is an attempt to rub soap in Petrograd that cannot be brought to fruition. A dangerous proceeding if the revolutionary people have awakened the Russian people.

Washington has discovered a new plot. German agents are charged with attempting to destroy communism on the great seas. It would appear from this that the previous efforts to arouse greater war enthusiasm have miscarried.

It is only to be regretted that the latest American Kultur-strivings in East St. Louis cannot be perpetuated in the moving pictures. In order that they might be shown in Germany at a future period. The barbarians eye would not only have been opened but set to bulging.

If Petrograd is to be credited, War Minister Kuromori personally led the attack of the revolutionaries. In order that he led them by the nose at the behest of the allies, this is merely a fulfillment of his duty and duty.

**JACKIES WILL ENJOY 'FOURTH' ON THE FIFTH**

Fourth of July is being reserved for the Frisco today, for the men of the Great Lakes Naval Training station. A parade and review of more than 3,000 apprentice seamen and a day of field sports, boxing contests, and other entertainment will be the celebration of the sailors.

Capt. Moffett, in setting aside today, took into consideration that many of the men in training, including the band, had been given permission to participate in outside affairs yesterday. The parade will take place at 4 o'clock, after which there will be a sham battle. There will be exhibitions of deep sea diving, hand canonic, and a dance.

Lieut. Leo Hammond of the navy reserve fliers circled the station twice yesterday in the first of a series of practice flights.

**SIXTEENTH BODY IN WHALEBACK TRAGEDY FOUND**

The body of Charles B. Tibbitts, who met his life in the Christopher Columbus accident last Saturday, was recovered in the Milwaukee river yesterday. His was the sixteenth body recovered.

Mr. Tibbitts was an instructor in the name Miliken university at Decatur, Ill., and was taking summer courses at the University of Chicago. He was formerly an instructor at Lake Forest.

The recovery of his body leads to the belief that when the tank which fell on the ship is raised today more bodies will be recovered.

**Call New Mass Warship Liberty.**

The twenty-sixth annual Union Scotch picnic was held at Riverbank park. This was the Scotch "contribution" to the Fourth of July every year. Scotch and Irish dances and games marked the affair. About 5,000 Scots were present. The Chicago Scotch Pipers' association piped and hundreds of lasses danced the Highland fling, the Shean reel and the two step. Several competitive dances were held. The winners of the competition were Gladys Hansen, Mildred Pedrick, Margaret MacIsaac (Margaret won first), Samuel Hunter, Irene Cleary, and Alice Pedrick.

The prize for the oldest Scotchman on the picnic was won by Adam Gamwell, 81.

Refreshments were served to wit: scones, tatties, and haggis.

## TEN EXEMPTION BOARDS IN CITY FAIL TO REPORT

Doctor "Can't Send Boys  
He Helped Into the  
World to War."

Delay in putting the draft into operation, at least in Chicago, was seen yesterday in the failure of ten of the eighty exemption boards to appear at the election commission's office for their reports. All should have reported last Monday and got to work at once.

On top of this came the fact that some exemption boards had not yet received their instructions from Gov. Lowden and would not serve.

Business cases were assigned by all of the men but one, who headed back to the president's commission from the Chicago district.

The exception was Dr. Frank A. Stahl, 1230 South Halsted street, in the forty-fourth district. This is in the Twentieth ward.

Why Elmer Can't Serve.  
Morris Elmer of Mayor Thompson's cabinet also was named a member of the same district board. He sent his resignation in, declaring he was not against the war, but that he had not the time to give to the board work.

Dr. Stahl, however, does not let back on business excuses. He just can't make himself believe he should sit on a board that will send young men whom he attended when they came into the world into the trenches against the wishes of their mothers.

Dr. Stahl let his brother, John G. do the talking for him after an emphatic denial was made that he was pro-German and would have nothing to do with the draft.

Thinks of the Mothers.

"The doctor is not actuated by political reasons in desiring not to serve on the exemption board," said Brother John last night. "You see, it's like this: We were raised in the good old, Congregational and Presbyterian schools. Our old minister was a Scotch Presbyterian and the doctor and I still retain some of his teaching."

"Now, the doctor, bless you, has lived around here a long time and he brought most of these young men in this neighborhood into the world. He is a little old-fashioned about this doctor business. He is kind hearted. He likes to have lives and all that."

"What ought to be done is to have the regular army physicians sit on these boards and not take the neighborhood doctor to do it."

With Elmer and Stahl both uncooperative, the exemption board in the Twentieth ward, 1230 North Dearborn street, to take charge of the district. Chas. Clark Ryan of the election board didn't think the cards should be shuffled around and he had one of the vacancies filled. This will have to be done by President Wilson.

"Too Busy," Two Say.  
Right across the way in the Nineteenth ward in the Forty-third district two of the three members yesterday sent their resignations to Gov. Lowden. They are Louis J. Marchak, 609 West Twelfth street, a furniture merchant, and Dr. John Vitullo, 526 South Halsted street.

Dr. Vitullo denied the report that fear of political wrath or sympathy with Germany had anything to do with his resignation. He said he was a busy man and could not give the necessary attention to the board.

Dr. Vitullo also is too busy to help the draft board.

Leo Barron, 525 South Bishop street, is left alone on this board and he didn't get his cards yesterday.

The Seventeenth district, down in the Seventh and Thirty-second wards, is another board that failed to call for cards yesterday, and so far as the registration officials know they have not organized. Oscar W. Eckland, 6240 Ken-

## Britain's Rule of the Waves Saved Her from Early Defeat

BY COL. HENRY J. REILLY.

In the preceding article it was pointed out that for many years Great Britain had thoroughly appreciated the value of overseas communications both in a commercial and military sense, and had carefully prepared to take full advantage of these communications in time of war.

The British navy was confronted with three problems immediately war commenced—the blockade of the German ports, the safe management of the first expeditionary force from Great Britain to France, and the capture or destruction of all German warships at sea.

The great superiority of the British fleet, practically immediately assembled, played the first object, in that the German high sea fleet remained in port and enemy commercial ships on the high seas immediately sought neutral ports for refuge.

Talklands of Use at Last.  
The expeditionary force was safely landed in France without loss. The British cruisers in various parts of the world started to chase the raiders, such as the German raider, the ultimately successful in destroying all of them or in driving them into neutral ports.

The only enemy squadron at sea was the China sea, which had been based on the coast of China. This was destroyed by a British squadron sent out from England, which used the Falkland Islands as a base.

"This was an excellent example of the value of maintaining bases along sea routes. These islands have practically no commercial value. This was the first time in all the years she has had them that Great Britain has gotten any use from them. During this short naval campaign they were of the greatest value, as the British squadron had a base and the enemy had none."

Oil on Either Continent.  
In the same way all the cruises chasing enemy raiders throughout the war always have had bases from which to obtain supplies, no matter what part of the world they have been in, while the

wood raider, with few exceptions, have had none.

A good many British naval vessels are oil burners. Most of the oil they use comes from the coast of the Persian gulf or from Mexico. If the British had not had control of overseas communication they could not have obtained this very necessary oil.

Most of the material used by the British in the manufacture of war supplies of all kinds must come from abroad. Most of the food used in the British Isles comes from abroad. Their commercial and industrial life is largely dependent upon overseas commerce.

In the beginning of the war the regular troops scattered throughout the various possessions had to be brought to Europe and their places taken mostly by territorial troops sent out from England. Holding the head of the Persian gulf to prevent its seizure by the Turks and the protection of the Persian oil fields depended upon troops sent from India by sea.

Dependent on the Sea.  
The protection of Egypt demanded the reinforcement of the garrison. Some of the troops came from England, some from Australia and New Zealand, and later some from South Africa. The Dardanelles expedition and the Soudan campaign depended upon overseas transportation of troops and supplies.

All the troops sent to Canada had to cross the seas to reach Europe. The Canadian, New Zealand, and South African troops, who finally came to the aid of the British in the Soudan campaign, had to cross the seas.

Had this not been well understood and prepared for prior to the war and had the navy been permitted to be as superior in its preparations for war on the sea as it was for war on the land the British empire would have been decisively defeated before it would have had a chance to fight.

ward—Charles A. Spitz, 7021 Perry avenue; Henry W. Fairbank, 7702 Lowe avenue, and Dr. R. L. Van Dellen, 7100 Emerald avenue. Dr. Van Dellen has been out of the city. Spitz and Fairbank, however, will buckle on the duty badge today.

Eighty-first, part of Thirty-fourth ward—Frank M. Sampson, 1480 Independence boulevard; David Anderson, 3401 West Twelfth street; and Dr. Francis J. Buss, 1400 South Avers avenue. They will get busy today.

Eighty-fifth, part of Thirty-fifth ward—Oris P. Wolf, 1724 Humboldt avenue; Dr. W. Francis Jacobs, 1782 Humboldt avenue, and Dr. E. E. Henderson, 1532 Humboldt boulevard. They will be down at the election board's office today.

Eighty-fifth, part of Thirty-fifth ward—Theodore Frouk, 4441 Washington boulevard; Dr. John J. Gartin, 4310 West Jackson boulevard; and Dr. Alexander Whamond, 4309 West Washington boulevard. Dr. Whamond said they would surely be on the job today.

Unless He's Meanest Man,  
"Dip" Will Return \$75  
The Tribune received yesterday the following letter:

"Will you please accept to some kind-hearted policeman who picked up my money and took \$75. I scrub and wash for a living and have two babies. There is no food in the house and I am penniless. The missing money was just loaned me to pay a hospital bill. Why, I even borrowed the pocketbook to carry it in!"

"Tell whoever took the money that they may have had it, if they return it. Ask them to send it to 'The Tribune, Please!'"

Mrs. M. E."

Very satisfactory summer suits  
for men and young men

TOP style, cold water shrunk, tailored to keep shape; skeletonized for coolness; the best possible summer suits. Dixie weaves, Palm Beaches, mohairs, linens, silks, flannels, zephyr worsteds, Scotch and Irish homespun. A variety of patterns unequalled anywhere.

\$7.50, \$10, \$12, \$15, \$18, \$20, \$22.50, \$25, \$30.

The season's best values are in these Hart Schaffner & Marx suits at \$25

THE best of materials; pure Australian worsted suits, soft and double-twist weaves. You can't afford to pass up these extreme values. Men's and young men's styles; extra sizes for big, stout, fat men.

You'll never see better values. Styles and colors for all occasions. \$25

## DRAFT BOARDS PUSH WORK FOR ARMY LOTTERY

All Expected to Finish  
Organization Next  
Week.

[BY A STAFF CORRESPONDENT.]

Washington, D. C., July 4.—[Special.]—While officers in charge of the national lottery that will select the young men of eligible age for army service are waiting for an announcement of the date on which the drawing will take place, local exemption boards throughout the country are being formed. Boards for every community in the nation have been appointed. They are expected to be organized within a week.

The regulations for these boards provide for the making of duplicate copies of all cards during their jurisdiction within three days after each board organization.

Reports that considerable delay in being called by wholesale registrations for political reasons from local boards could not be confirmed here today, and it was asserted that every evidence shows the men appointed are responding willingly to the call for their service.

Post Drafted Names.  
As the names of the men called for military service are drawn in the big lottery the local boards will post these names and opposite the names they will post the "serial number" of each man called. The men will be known principally by their serial number, and this should be referred to in all cases where claim for exemption or discharge is filed. These lists will be posted in the headquarters of the various boards, and a list will be made available for publication.

Also every man whose name is drawn will be informed by mail at the address he gave on registration day that he has been called for service.

Unless the man who is called notifies his local board of his claim for exemption within ten days after the notification of his selection is mailed to him he will be considered fit for service and will be accepted if he passes the physical examination.

In all cases those who claim to be unfit for service will use the forms prepared by the war department. These forms can be secured from the local board.

Use Government Forms.  
The headquarters of each board will be made public as soon as the boards have picked their offices. There will be 146 forms covering the grounds for exemption and discharge on which claims may be made. Every man called must use these forms, otherwise his claim will not be recognized.

Beginning next week it is expected the various exemption or discharge claim blanks will be available to the public. These blanks will show in detail the information and conditions that will be required in all claims for exemption.

ELKUS ARRIVES  
WITH HIS FAMILY  
July 4.—Abraham I. Elkus, former United States ambassador to Turkey, with which this country severed diplomatic relations last April, arrived here today.

Mr. Elkus was accompanied by his wife, three children, and attaches of the embassy at Constantinople. The party was brought from the steamship to the Battery on a police patrol boat after being informally welcomed at quarantine by a citizens' committee.

Regarding the diplomatic break between Turkey and this country all the former ambassador said was:

"The Turkish officials were very sorry that the break between the United States and the Turkish empire occurred."

With his wife and children Mr. Elkus went to his summer home at Seabright.

## EDUCATOR, MIND GONE, ISHMAEL IN CITY'S DREGS

Wide Search Is Made  
for Brown, Seen on  
West Side.

With brain fogged by a nervous breakdown, Alfred R. Brown, president of the Austin Business College, is wandering penniless among the cheap lodging houses of Chicago, his name apparently forgotten by himself and his identity unknown. Friends who have searched for him continuously since he disappeared from his home, 5229 West Harrison street, two weeks ago, combed the slums yesterday which he is known to have frequented in the last few days.

They found traces of him in several lodging houses on the west side, where he has "died" at times since he left his home. He was recognized by the lodging house keepers from photographs supplied by Mrs. Brown.

It was found, however, that he had spent the night in the Burtis Dumas hotel, and another night at the T. M. G. hotel on the south side. Managers and clerks of these hotels are watching closely for him to return to one or the other of the places.

Mrs. Brown declared that only a nervous breakdown which has destroyed his memory and left him a penniless and aimless wanderer, can account for his behavior. She said he has served himself closely to his work last winter, and lately has been subject to nervousness and insomnia.

Dr. Percy L. Francis, chief inspection inspector in Chicago, and an intimate friend of Mr. Brown, picked up the trail of the man among the habitues of west side saloons and lodging houses. They told of his coming among them, unshaven, unkempt, and clothes worn and torn. He said nothing of himself, they said, and seemed dazed at his surroundings.

Both the police and the managers of the saloons and lodging houses are looking for him.

Mrs. Brown expressed confidence yesterday that he will return home when he recovers his memory.

## GOVERNOR RIDES PROVISION TRUCK IN MINE STRIKE

Wide Search Is Made  
for Brown, Seen on  
West Side.

While the rest of the nation is more or less worried about food, Lake Forest's problem is water. Sandwiched in between the thousands of soldiers at Fort Sheridan and the thousands of sailors at Lake Bluff as it is, there have been many complaints about contaminated water. Mayor Kenna H. Addison has issued a notice warning all Lake Forest folk to boil lake water before using.

In connection with which, L. C. Trow, superintendent of the Lake Forest Water company, sent a letter to Mayor Addison, calling attention to another angle of the polluted water problem.

At the north line of the city park, in the ravine just south of Mrs. Abbey Perry's residence, there is an overflow, wrote Mr. Trow. "The sewage from this overflow passes down the ravine into the lake."

The writer at one time saw children from numerous of Lake Forest's families, constructing a dam in front of this sewage overflow.

The writer at one time saw children from numerous of Lake Forest's families, constructing a dam in front of this sewage overflow.

While the rest of the nation is more or less worried about food, Lake Forest's problem is water. Sandwiched in between the thousands of soldiers at Fort Sheridan and the thousands of sailors at Lake Bluff as it is, there have been many complaints about contaminated water. Mayor Kenna H. Addison has issued a notice warning all Lake Forest folk to boil lake water before using.

In connection with which, L. C. Trow, superintendent of the Lake Forest Water company, sent a letter to Mayor Addison, calling attention to another angle of the polluted water problem.

At the north line of the city park, in the ravine just south of Mrs. Abbey Perry's residence, there is an overflow, wrote Mr. Trow. "The sewage from this overflow passes down the ravine into the lake."

## CITY OPENS WAR ON PNEUMONIA WITH NEW SERUM

Health Department to Be  
Ready When "Season"  
Opens in the Fall.

BY HENRY M. HYDE.

It seems probable that pneumonia—the most common cause of death—is now the war to be conquered. At least, the health department of the city, under the leadership of Dr. Robertson, is now preparing to meet the "season" of pneumonia which is expected to open in the fall. The health department has been working for some time on the preparation of a new serum, which is expected to be ready in time for the "season" of pneumonia.

Robertson says. The health department has been working for some time on the preparation of a new serum, which is expected to be ready in time for the "season" of pneumonia. The health department has been working for some time on the preparation of a new serum, which is expected to be ready in time for the "season" of pneumonia.

Death Rate 50 Per Cent. The health department has been working for some time on the preparation of a new serum, which is expected to be ready in time for the "season" of pneumonia. The health department has been working for some time on the preparation of a new serum, which is expected to be ready in time for the "season" of pneumonia.

Plan an Immediate Start. The health department has been working for some time on the preparation of a new serum, which is expected to be ready in time for the "season" of pneumonia. The health department has been working for some time on the preparation of a new serum, which is expected to be ready in time for the "season" of pneumonia.

Not a Sure Cure. The health department has been working for some time on the preparation of a new serum, which is expected to be ready in time for the "season" of pneumonia. The health department has been working for some time on the preparation of a new serum, which is expected to be ready in time for the "season" of pneumonia.

Record sticking was an annoying difficulty in the voice writing system, until Thomas A. Edison and his corps of experts solved the problem with the collapsible mandrel. Through many such improvements the Edison Dictating Machine makes possible the highest degree of efficiency.

## KITCHEN STRATEGY

Housewives and Others May Help Win the War by Skillful  
Maneuvers in the Culinary Departments of the  
American Home.

**HOW MUCH DO YOU  
LOVE YOUR COUNTRY?**  
*Food Will Win the War*  
**WILL YOU "SERVE BY SAVING?"**

If so, sign this definite, tangible pledge of patriotism and loyalty to our country's cause. Help conserve food for victory.

I hereby pledge myself to do without one of the following foods—the one I have checked—on one day of every week while the war lasts.

List of Foods to Be Saved	Day of the Week
Wheat	
Meat	
Fats (lard, butter, cream, etc.)	

Signature \_\_\_\_\_ Address \_\_\_\_\_

Several thousand war diet postal cards, urging north shore housewives to help win the war by conserving food, were sent out yesterday by the War Emergency unit.

Some of the suggestions made were: Utilization of all scraps of bread for puddings, stuffings, etc., and elimination of all wheat cereals; use of meat, fish or eggs not more than two meals a day; no butter in cooking, and substitution of vegetable oil for animal fat.

A mass meeting of food conservationists has been set for next Wednesday at DuSable Institute, in Lake Forest. Another conservation meeting has been set for the Home Economics association and conservation department of the Woman's committee for Friday at the School of Domestic Science. In the afternoon the University of Chicago asks those interested to attend a lecture

and in time. It is somewhat less efficacious in the second class. About 65 per cent of all cases come under these two classifications. Something like 10 per cent of the cases belong to the third class, and with them the serum does comparatively little good. The remaining 25 per cent are assigned to class four and do not often result fatally.

Within thirty days the laboratories of the department of health in the city hall will be equipped to identify the class to which any case of pneumonia called to their attention belongs. The process is simple, but it will be necessary to make some preparations for the work.

## SPIKED SHOES FOR COUNCILMEN NEXT SATURDAY

The city hall will practically close shop Saturday when members of the city council will be expected to play baseball with the athletic team of that town. The game will be for the benefit of the Red Cross, and 5,000 tickets already have been sold in Milwaukee.

Chicago aldermen who are members of the team will make the trip by automobile, leaving early Saturday morning. Spectators will be carried on a special hop-on hop-off train over the Chicago, North Shore, and Milwaukee Electric railway, which will leave the Clark and Kinzie streets station at the Northwestern elevated at 9:30 o'clock in the morning. About 5,000 persons are expected to be on hand to cheer the Chicago players.

Mayor Thompson has been invited to umpire but as yet has given no decision. Two bands will supply music for the audience so as to distract attention from the playing of both teams, if necessary.

## Temporary Homes Wanted for "Temporary Orphans"

The Illinois Children's Home and Aid society is seeking temporary homes for children whose parents, through illness or other misfortune, will be unable to care for them properly until conditions change for the better. Many mothers with large families and the husband and father ill and undergoing treatment at the tuberculosis sanatorium have been forced to neglect their children in order that they themselves might become bread winners. Often the father and mother, deeply in debt, have both been forced to work, leaving their children to their own resources.

## AUTO OWNERS BY HUNDREDS MADE LIABLE TO ARREST

Police Say New Law Will  
Put a Crimp in  
Robberies.

Several hundred automobile owners in Chicago, who got their cars through apparently legitimate channels, are liable to arrest, fine and imprisonment. A new state law, which went into effect July 1, casts a cloud on the title to the cars.

This law makes it a misdemeanor to have in one's possession a car which carries a "stamped" number. The penalty is \$100 or six months in jail, or both. Any day the police department decides to act it can have a general "cleaning up." An official of the vehicle department of the Illinois bureau said yesterday:

"Any afternoon we can pick up twenty cars with stamped numbers, and keep on doing it day after day."

Stumbling Block Removed.

And what is more, the police believe that the time of reckoning is bound to come. The law sweeps away one of the hardest problems with which they have had to contend. If your car has a past that is dark and mysterious, it will take all the time of the police to find out what it is.

"We've pleaded for three years, with tears in our eyes, for this law, and now we've got it," said a member of the bureau yesterday. "That shows how the police value the legislation. Having got it, they likely will not let it lie dead."

The companies which have insured cars have placed, perhaps unwittingly, one of the hardest stumbling blocks in front of the police. They have been in the habit of paying for stolen cars. If the cars were found they would sell them for what they could get.

Those cars go out upon the street, eight times out of ten, the police say, with false serial numbers upon engine, chassis, and other parts. The buyer to-day is liable to arrest, and the car itself is evidence enough for conviction under the law.

A Case in Point.

The police have methods by which they can prove in a way as certain as the finger print system if a number has been tampered with. And here is a sample of their problems:

"The other day a car was 'picked up' with false numbers. The owner had a bill of sale. They went to the man he had bought it of. He told where he had got it. They went to the third said he had purchased it of an insurance company. They went to the insurance company. Every man had told the truth."

But the result was that an investigator had lost a couple of days. It was a stolen car, but it was honestly owned, having been recovered and sold by the insurers.

"The insurance companies in the past have refused to spend a nickel to get the right serial numbers put back on cars they recovered," said this same police official. "Now I guess they'll have to do it."

So the police may go about it very soon setting Chicago's automobiles in order.

## Alienists' Convention to Talk Military Psychosis

Military psychosis will be one of the principal themes to be discussed at the sixth annual meeting of the alienists and neurologists of America which will be held in the Hotel La Salle next week. The program was arranged by the local committee yesterday.

There will be a hearing tomorrow in Justice Kendall's court in Oak Park. Dunn was released on a \$500 bond. He has fought the juvenile court on, the ground that the sentence sometimes result in the breaking up of families.

Man Shot in Nose.

Frank Elmer, a plumber, 5148 West Chicago avenue, was shot in the nose yesterday by Louis Stankovic, 2148 West Chicago avenue, after an argument over money. Stankovic stopped.

## THINKS HOYNE'S MAN BUTTED IN HIS FAMILY ROW

William H. Dunn of Brookfield, who was arrested on the complaint of his son-in-law, Carl A. Lax, also of Brookfield, charged Lax yesterday with attempting to break down the campaign against the juvenile court, which Dunn has conducted for years. He said he believes that Assistant State's Attorney Hogan, who has defended the court against Dunn's legal attacks, is behind the charges.

Lax maintains that his wife's father obtained \$100 on false pretenses. The trouble arose over a house which the young couple built. According to Lax, Dunn secured \$100 from a loan on the house, and instead of paying the carpenter kept the money. Dunn says he paid the carpenter.

"My daughter has filed suit for divorce against the boy," said Dunn. "Personally we have never had a bit of trouble before, and the only way that I can figure it out is that somebody is helping him get back at me for my fight on the juvenile court. Assistant State's Attorney Hogan is pretty angry at me."

"My son-in-law is paying alimony now and he doesn't like it. He told his wife he would get even with me, even when I sent her back to cook his meals after he had threatened her. When she told me he brought a gun home I told her she had better come over and live with us. So far as the money is concerned, every cent has been paid to the carpenter."

"The carpenter hasn't got it," said Lax, who is a neighbor of his father-in-law. "I haven't the slightest interest in his fight on the juvenile court and this case hasn't a thing to do with the alimony."

## DODGE BROTHERS MOTOR CAR

The knowledge of what the buyer expects has the effect of inspiring Dodge Brothers to a constant personal oversight of all manufacturing operations.

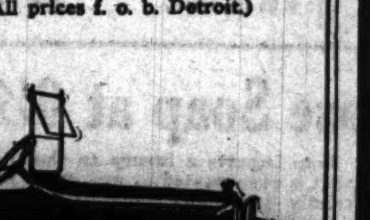

Their own life-long zeal for good workmanship is sharpened and stimulated by a realization of what the public expects from them.

The entire institution is honestly permeated with the idea that quality and performance are paramount and all-important.

It will pay you to visit us and examine this car.

The gasoline consumption is unusually low.  
The tire mileage is unusually high.

Touring Car or Roadster, \$235; Winter Touring Car or Roadster, \$1000; Sedan or Coupe, \$1265. (All prices f. o. b. Detroit.)

DASHIELL MOTOR CO.

2412 Michigan Avenue Phone. Calumet-5776.

## 70 KIDS FROM TENEMENTS GO TO CAMP TODAY

Mothers' Happiness,  
Health Depends on  
Tribune Readers.

Seventy happy kids from the congested districts of Chicago will leave today for Camp Algonquin. It will mean to many of them the first sight of a cow, the first river that could be used for bathing, the first hill, the first view unobscured by the buildings of a city.

Tomorrow fifty more children will go, and another group of fifty will leave on Monday. On Tuesday, Wednesday, and Thursday a group of 105 convalescent mothers of the tenements will go to Tenement hospital at Algonquin.

## Depends on Readers.

This is those mothers will go if the readers of THE TRIBUNE do not forget that with the needs of the Red Cross and the government loans there are also the needs of poor, sick women whose designated diet of milk, eggs, and fresh vegetables has been wrecked by the high cost of living. All of these women can't go unless between now and next Thursday some of the money for their food and nursing service is contributed.

To make of the women it will mean the need to get the through from the fight for extension and to spend ten days or two weeks, or even a month if necessary, at Tenement hospital, where everything needed to give them the best of treatment is furnished.

If you who read this do not help, these women must remain at home. There will be crying babies to care for. There will be boys and girls of an age that will take advantage of the illness of a mother to run wild.

## For Your Heart's Sake.

If you do help and lend in money at once, those children will go along to Camp Algonquin. Those mothers will be in the hospital, on its broad verandas, or under its great trees. They will know that the babies and the children are getting the finest fresh air and food treatment available. All of the thousands of mothers of the tenements who will come and if complete recovery from the illness which has weakened and wrecked them is possible, it will come there.

The babies who have to stay in the tenements need your help, too. Give to them, the staff of life. It means fresh milk. The Tribune fund is an institution established to help those babies and to furnish that milk. If you can contribute to the fund, or the hospital fund, or both, send your contribution to THE TRIBUNE and specify for which fund you want the money used.

Frank Elmer, a plumber, 5148 West Chicago avenue, was shot in the nose yesterday by Louis Stankovic, 2148 West Chicago avenue, after an argument over money. Stankovic stopped.

My daughter has filed suit for divorce against the boy," said Dunn. "Personally we have never had a bit of trouble before, and the only way that I can figure it out is that somebody is helping him get back at me for my fight on the juvenile court. Assistant State's Attorney Hogan is pretty angry at me."

"My son-in-law is paying alimony now and he doesn't like it. He told his wife he would get even with me, even when I sent her back to cook his meals after he had threatened her. When she told me he brought a gun home I told her she had better come over and live with us. So far as the money is concerned, every cent has been paid to the carpenter."

"The carpenter hasn't got it," said Lax, who is a neighbor of his father-in-law. "I haven't the slightest interest in his fight on the juvenile court and this case hasn't a thing to do with the alimony."

There will be a hearing tomorrow in Justice Kendall's court in Oak Park. Dunn was released on a \$500 bond. He has fought the juvenile court on, the ground that the sentence sometimes result in the breaking up of families.

**An Advertisement by  
THE PULLMAN COMPANY**

**Service.** Cars of the Pullman Company are today operated over one hundred and thirty-seven railroads, aggregating 223,469 miles of track, and afford the means to reach with maximum comfort, safety and convenience, every point of interest to the traveler.

By securing Pullman accommodations, the traveler is further assured of safety, due to the strength of the car construction, security of health, due to the scientific cleaning and sanitary methods employed, and the convenience resulting from the service of fifteen thousand efficient and experienced car employees. Accommodations may be purchased in advance, and, if for any reason passengers are unable to make the trip, the amount paid for the tickets will, upon application, be immediately refunded.

Experienced representatives stationed at every principal point in the United States are prepared at all times to provide special parties with private cars, containing dining room and kitchen, accommodating from eight to eighteen persons, in charge of a competent chef, porter and waiter, or, if desired, complete trains consisting of baggage-library, sleeping, dining and observation cars.

War has forced the Three Weeks league, one of the oldest summer leagues of the country, to close its parks. The organization will suspend its season next August, President A. R. Kearney announced last night. The eight clubs have lost approximately \$18,000 since the start of the season, about a year ago.

Although the league faced unprecedented weather conditions early in the season, President Kearney said that subscriptions to the Liberty loan and the United States war bonds had made up for the loss in the game, owing to the war, contributed largely to the league's failures.

The league has been in operation for seventeen years. It is composed of the following clubs: The Three Weeks, The Rockford, Quincey, Alton, Moline, and Moline.

## The Successful

**Home Garden**

This department will appear daily and Sunday in "The Tribune." Inquiries and suggestions should be sent to the head and back part gardens to decrease the cost of living should be addressed to The Garden Editor.

**J. F. H. BRIDE.**  
No. 129.

**SOW NOW.** Early corn and wheat for winter garden beds, early sweet corn, head lettuce, summer and winter cabbages, early kohlrabi, and field turnips.

**TRANSPLANT NOW.** Early red cabbage in "catch crop." Savoy cabbage, flat-branching and green, curly, summer endive, kohlrabi, head lettuce, and tabbagas.

Early Ohio potatoes may safely be santed this week—the last chance.

—

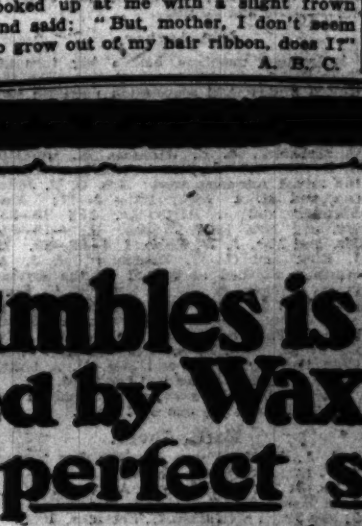

**QUESTIONS AND ANSWERS**

Q.—Will you please let me have the formula for kerosene emulsion? I understand it is the proper thing on cabbage and cauliflower.—W. J. S.

Ans.—Kerosene is the oldest of the insecticides. For aphids or plant lice it has been largely superseded by kerosene extract. (See the article of July No. 197.)

**KEROSENE-EMULSION.**  
One quart, one-half pound; water, 1 gallon; soap, 2 gallons.

Put the soap in hot water; remove from the fire, and while still hot, add the kerosene. Pump the liquid back into the fire for five or ten minutes, or until it comes a creamy mass, which is the emulsion.

There is some localities near Fort  
St. John's where I say this thing  
and some other things about it in  
two years when I have seen it  
but certain things about it are  
from the waste of dust and dirt  
and all.

I will take a chance in the  
of the many who displayed their  
midwalk. But the committee  
several of the club women were  
men not so. Previously he could  
stagnated products, even when  
when he could not. When he  
all be as the light moon.  
But let us not be too hard on  
people, who work back to plain  
nearly have had courses in hand  
keeping, as all the hair turn to  
move. We do not want to dis-  
prove our out of business. There  
might be good reason to leave it  
harder to get our daily necessities  
has been in the past. In all con-  
vents like the great ones, which  
state can suffer, but the same  
able and skilled people become in-  
is for the suffering, among them  
is often a dealer in food, and  
in this food saving, and the  
of wisdom to save the labor of  
dealer.

"The Poor Man's  
Potato" has become a  
rich man's luxury. Whereas  
at three dollars a bushel or  
twenty-five cents a bushel,  
potatoes are not a common  
food. Two or three Bushels  
Wheat Flour and milk  
furnish more nutriment  
body-building nutriment  
than a meal of potatoes  
meat, are much more el-  
ligated and cost much less.  
Shredded Wheat is 80  
per cent. whole wheat, with  
nothing added and nothing taken  
away—gives mental rest  
and physical vigor to in-  
not days. Delicious in  
breakfast, or any meal with  
sliced bananas, berries,  
other fruits, and milk. Made  
at Niagara Falls, N. Y.

## Now in Progress

Are you taking advantage of the biggest Fashion-Value Event of the year?

Thousands of Chicago women will enjoy the advantages of this—the season's greatest opportunity for economy, in securing smart apparel of the highest character at the same substantial reductions of former years.

All our Spring merchandise has been marked for Clearance regardless of cost. Fortunate purchases of fine materials have enabled us to include as well some remarkable values in fresh new garments of quality.
